

WHO WE ARE

- A unique team of elite medical practitioners specializing in the art of providing exceptional concierge physiotherapy services to private clients, film productions, concert tours, Broadway productions, national and international theatrical productions, and West End productions

NEURO TOUR is independently owned and operated by Carolyn M. Lawson PT, FOC, ART-Cert founder and president of NEURO TOUR Physical Therapy, Inc www.neurotour.com

- Our practitioners hold advance degrees and certifications including but not limited to:
 - Functional Orthopedics (FOC): An integrated treatment system which combines mechanical treatment of the joints, soft tissue, visceral and neurovascular system with manual neuromuscular facilitation to enhance optimum motor control and human function.
 - Vocal Massage: Advanced soft tissue techniques to release tight laryngeal musculature and passive stretching to decrease inflammation and improve vocal fold mobility.
 - Active Release Technique (ART): Soft tissue technique that treats dysfunctions of muscles, tendons, ligaments, fascia and nerves.
 - Spinal Manipulation: High-velocity low-amplitude thrust manipulation of the cervical, thoracic, lumbar, and sacroiliac joints.
 - Dry Needling: A technique unequalled in finding and eliminating neuromuscular dysfunction that leads to pain and functional deficits. A fine filament needle inserted into the muscle in the region of a “trigger point”. The aim of dry needling is to achieve a local twitch response to release tension and pain.
 - Kinesio Taping (CKTP): A method of taping designed to facilitate the body’s natural healing process while allowing support and stability to muscles and joints without restricting the body’s range of motion.
 - STOTT Pilates Instructors: Pilates is a total body workout involving core strengthening, toning, resistance training, cardiovascular fitness and stretching. Pilates enhances overall functional fitness.
 - CrossFit Instructors: CrossFit is constantly varied, high-intensity, functional movements. Functional movements are universal motor recruitment patterns – they are performed core to extremity; they are compound movements and multi-joint.
 - Emergency Medical Responder Certified: Training in emergency medical care that includes life-saving skills, triage, and medical interventions.
 - COVID – 19 Compliance Officer Certified: This certification follows the requirements of the County of Los Angeles Department of Public Health Order of Health of the Health Officer and guidelines presented by National Set Medics, AICP, Alliance of Motion pictures and Television Producers white paper, and General Workplace Safety Guidelines set by the CDC.
 - NEURO TOUR Fellowship: Extensive manual therapy training and education with an emphasis in Performing Arts Medicine. Fellowship includes, but not limited to, soft tissue mobilization, joint mobilizations, manipulations, cupping, and functional movements.

WHAT WE DO

- NEURO TOUR provides an extensive menu of services, elite practitioners and expert management.
- NEURO TOUR provides and maintains all necessary equipment needed to prevent and treat injuries which may occur while on set or while touring.
- NEURO TOUR provides and maintains all necessary insurance, including medical malpractice, general liability, worldwide coverage, employers' liability coverage and worker's compensation.
- NEURO TOUR will observe athletic movement patterns, choreography and stunts; we identify potential risk patterns, and formulate strengthening and stretching programs to address areas of risk in effort to reduce the potential for injury.
